Paper No./Mail Date _____.

7. ☒ Examiner's Amendment/Comment

8. ☐ Examiner's Statement of Reasons for Allowance

9. ☐ Other _____.

1. Claim 1 is generic and allowable over the prior art of record. Therefore, the restriction requirement, as set forth in the Office action mailed on 04 January 2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable generic claim.** Claims 4, 5, and 8, directed to one or more non-elected species, are no longer withdrawn from consideration because these claims require all the limitations of an allowable generic claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 2627

Authorization for this examiner's amendment was given in a telephone interview with David P. Emery on 10 August 2007.

3. The application has been amended as follows:

IN THE TITLE:

The title has been amended to read as follows:

--AUTOMATIC MEDIUM CHANGER WITH CARRIER-PRESSURE-OPERATED
MECHANICAL AUTO LOCK/UNLOCK MECHANISM--.

IN THE SPECIFICATION:

The 3rd full paragraph on page 17 has been amended to read as follows:

The motor M2 serves to drive the conveying roller, the conveying belt, the pickup hand or the like in the carrier 6 to thereby load or correct the information storage medium into or from the medium storing unit 4 or the read/write unit 5. As same as the aforementioned motor M1, the motor M2 is drive-controlled by an instruction from the CPU via the I/O circuit 17 and the shaft control driver ~~42~~ 21.

4. The replacement drawing was received on 07 June 2007. This drawing, however, is not acceptable as it does not comply with 37 CFR 1.84(p)(4). That is, the same reference numeral has been used to identify different parts in the drawing.

5. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

In FIG. 4, the left-most reference numeral "12" (drawn to the "SHAFT CONTROL DRIVER") will be changed back to reference numeral --21-- in order to avoid using the same reference numeral for different parts and comply with 37 CFR 1.84(p)(4).

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Craig A. Renner whose telephone number is (571) 272-7580. The examiner can normally be reached on Tuesday-Friday 9:00 AM - 7:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa T. Nguyen can be reached on (571) 272-7579. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
